PROFILE :

Data analyst with a background in economics and business management, skills in analyzing and forecasting with great insights from different data sets using key insights to turn challenges into solutions. Improving company's decision making and achieving goals through creativity, great communication and critical thinking.

PROJECTS:

TableauStoryboard

This project is for SalesStore stakeholders to understand about products and sales in different regions.

RockbusterProject

This is for a movie rental company to get ideas of different genres popular among viewers before they launch online rental services.

Githublink

This project is for Instacart grocery store to identify loyal customers and their spending power for developing marketing strategy.

EXPERIENCE :

MANAGER • APRIL 2015 - JUNE 2018

Kencell Stores, Imo, Nigeria

For a phone, laptop and accessories store, I analyzed sales records, consumer behavior, and staff performance. I then introduced staff welfare packages and customer incentives, leading to increased sales and profits.

MANAGER • JULY 2010 - FEBRUARY 2015

Odywell Fisheries, Imo, Nigeria

Developed an innovative method to accelerate the growth and enhance the health of fish, effectively managing risks associated with delicate species. This method yielded larger, healthier fish, resulting in high profit.

SOCIAL WORKER/ TEACHER • JUNE 2008 – AUGUST 2009

Mangu Sec.Sch, Plateau, Nigeria

Implemented a creative approach to instill knowledge and discipline in young students, shaping positive character traits. Contributed to a brighter future for society through youth development.
